

FritsJurgens®

FRITSJURGENS® HIDDEN PERFECTION

Doors are not only functional, but are used more and more as high-end interior design elements. FritsJurgens® believes in the timeless beauty of hidden perfection. A pivot door is invisible in its closed position, but can have a highly decisive spatial impact when opened. By applying the FritsJurgens® hinge system you can design a door that, in terms of functionality and experience, aligns seamlessly with your aspired spatial expression.

VIRTUALLY INVISIBLE

The FritsJurgens® pivot door system is virtually invisible. The pivot hinge systems are mortised entirely into the top and bottom of the door, with no structural elements in the floor and ceiling. Craftsmen at FritsJurgens® work every day to build a product of the highest quality with a passion for bringing design to the next level.

FRITSJURGENS® ENGINEERING

DUTCH ENGINEERING

The FritsJurgens® pivot hinge systems are produced and engineered in the Netherlands.

EXTREME PRECISION

Craftsmen at FritsJurgens® work every day to build a product of the highest quality.

BUILT-TO-LAST

The FritsJurgens® pivot hinges are designed to stand the test of time.
